

SYSTEM REQUIREMENTS

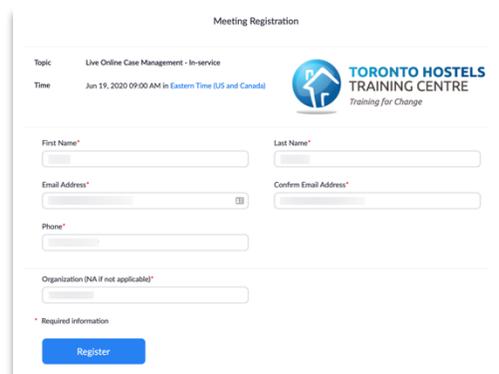

THTC strongly recommends using a computer (**PC** or **Mac**) to join live online training. Mobile devices such as smartphones and tablets have limited functionality.

Once connected to the meeting, participants can choose between **computer audio** or a **local phone number** to connect to the audio conference. If using computer audio, it is recommended participants use a **headset** for the best experience. A built-in camera or **webcam** is strongly recommended for all sessions and required for some.

For detailed system requirements, visit <https://support.zoom.us/hc/en-us/articles/201362023-System-requirements-for-Windows-macOS-and-Linux>.
